NOTABLE FOLK IN THE KOREA

A number of prominent and interesting people arrived by the Korea last evening. Among them is Bishop T. A. Hendrick, who has been in the Philippines for the past four years, and is now en route to his home in Rochester, New York, where he will visit for a number of months before returning to his diocese.

Dr. Francis Valenzuela, who for some time past has been Mexican health officer at the port of Hongkong, is now returning to his home in the City of Mexico.

William Martin, U. S. Consul General at Hankow, China, for many years, is en route to Washington and to visit his home in Dunkirk, N. Y.

Paymaster M. R. Goldsborough, U. S. N., has been attached to the Asiatic station for the past three years, and is now en route to Washington.

W. B. Patterson of Chicago has been making a business and pleasure trip to the Orient. He is accompanied by Mrs. and the Misses Patterson.

H. R. Spencer of Portland is returning to his home after a two years' absence on business in the Orient.

Fernand Lewis of Sydney, N. S. W., is en route to London.

N. L. Armitage and J. H. Fawcett, well known in the business world of Japan, are on a visit to California.

Mr. and Mrs. H. A. Ferguson of Tacoma are returning from a tour of the Orient.

W. G. Blackwell and L. C. Coventry of London are making a tour around the world for recreation.

Otto Franz, of the Austrian Embassy at Tokio, accompanied by Mrs. Franz, are en route to Vienna.

Messrs. Bouch and Kaiser of Breslau, Germany, are making a tour of the world.

J. W. J. Jellie, for many years in the customs service in China, is en route to visit his home in England.

Hans Albert, Chancellor of the Siamese Legation in Berlin, is returning from a visit to Siam.

John J. Carter, of the Standard Oil Co., is en route to his home in Pittsburgh.

Gaston Heliot of Paris, accompanied by Mrs. Heliot, is on a visit to the States, en route around the world.

M. W. Creagh, well known in the business world at Manila, is on a tour of the States.

BROKE BIG GUN RECORD OF WORLD

SANTA BARBARA, February 8.—The armored cruiser Maryland has broken the world's record in target practice at Magdalena Bay.

Commercial News

By Daniel Logan.

Although the market for centrifugal sugar has not recovered from the slight drop of the week before, it has held its own at \$75 a ton for the week just past and the parity of European hots, with some higher rights, has made an advance from \$81.40 to \$81.70. Though generally without feature and very slack, the stock market shows a strong demand for Oahu Sugar Co. at 23 1/2, with 24 asked. On the 5th Hawaiian Commercial & Sugar Co. announced its usual dividend of 65 cents a share. The mortgage of Pacific Sugar Mill, to cover its bond issue of \$500,000 previously noticed in this column, has been recorded.

In deciding a long list of income tax appeals the Supreme Court has set at rest—but with a rumored possibility of appeal to the United States Supreme Court—several disputed points. The cost of new buildings can not be deducted from gross income. Cost of a replacement may be allowed if the old piece of machinery is practically though not totally abandoned, this being applied to a case where an old battery of centrifugals had been left installed for an emergency. Expenditure for a new steel or concrete bridge to replace a wooden one is deductible only to the amount of what a new bridge like the old one would cost. Additional machinery installed in a sugar mill is a betterment. Necessary expenses of a business are deductible during the year in which they are incurred. Amounts expended in the production of movable property (sugar being meant) are chargeable against the sales of that property irrespective of the year in which the amount was expended.

Sales on the Stock Exchange for the week have been: Oahu (\$20), 100, 15, 15 at 23 1/2; Honolulu Brewing & Malting (\$20), 100 at 23, 25 at 23 1/2; Waiaina (\$100), 5 at 66; Haw. C. & S. Co. (\$100), 13 at 82.50; Oiaa (\$20), 75 at 3.50; Oiaa 6's, \$1000 at 91; Ewa (\$20), 17 at 24.50.

SOME PUBLIC MATTERS.

Auditor Fisher's statement of the Territorial treasury for January shows current receipts of \$125,313.95, being \$39,086.65 less than for the corresponding month last year. The deficiency is almost doubly accounted for in proceeds of sales of public lands. Total current expenditures were \$166,380.15, being \$24,694.14 less than for January 1907. The counties were paid \$59,000, or \$4000 more than the previous January. The current cash balance was \$300,510.83, a decrease from same month last year of \$73,176.94. Bonds to the amount of \$12,000 were taken up. The loan fund cash balance was \$393,456.37 and the outstanding bonds amounted to \$3,990,000, being an increase of the Territory's bonded indebtedness of \$278,000.

A preliminary settlement of the Laupahoehoe land question has been reached. There are 3070 acres at present under an expiring lease to Laupahoehoe Plantation Co. at an annual rental of 1200, and the Government is going to offer the tract for a five-year lease at an upset rental of \$8289 a year. It is not all cane land, a considerable portion being pasture and forest.

George F. Reaton, W. L. Hopper and J. H. Moragne have been appointed by Governor Frear to appraise the Kapaa lands and will meet on the ground this week. A proposed exchange of part of the lands with the Makee Sugar Co. pending the appraisal. Without awaiting the appraisal a tract of 220 acres of rice land will be put up for a five-year lease to begin July 1.

L. M. Whitehouse, who put in the lowest of four bids, has been awarded the contract for completing the Nuuanu dam, the price being \$120,972.

Work has been started by the Hawaiian Dredging Co. on its contract for deepening Honolulu harbor. Congress at last session appropriated \$430,000 for this service.

A steam tender for the lighthouse service of these islands, for which Congress voted \$215,000, is under construction in a mainland shipyard.

REAL ESTATE.

A judicial sale to have been held by Jas. F. Morgan yesterday was postponed one week to have it on the same day as another sale ordered.

Lately recorded transactions include a deed from administrator of estate of Solomon A. Kuaimoku to Mary E. Low, property at Haleli, South Kona, \$1850; deed from Fred C. Miller and wife to Trent Trust Co., property on Lunalilo street, Honolulu, \$1500 and mortgage \$1500; deed from H. Kin Wai and wife to Teop Horita, land and water right, Young and King streets, Honolulu, \$4000 and mortgage \$4000; deed from Ray B. Rietow to Lunalilo estate, property at Palama lately reported as bought at mortgagee's sale, \$1500; deed from A. C. Palfrey to Mrs. Isabel Beasley, interest in Oiaa lot, \$1500; deed from Manoel Vieira Jr. to John Vieira et al., interest in lands, North and South Hilo, \$5000.

Ocean steam arrivals for the week have been the Nebraskan from Seattle and Tacoma; the Lord Stanley from Newcastle; the Despatch from San Francisco to ply in interisland waters, the Mongolia from San Francisco, the Thomas from Manila, the Aorangi from Sydney, the Korea from the Orient, the Miowera from Vancouver. Departures have been the Mexican for Kahului, the Thomas for San Francisco, the Nebraskan for Hilo, the Korea for San Francisco, the Miowera for the Colonies.

BEAUTIFUL, BUT IN NEED OF THE SHUT LID

Editor Advertiser: I read with interest the editorials and other letters published in your columns upon a "wide open town." It may be well to state that we are not old "residents" but have recently come to your city. We have had the privilege of living in some beautiful places some of which were spoiled by being run "wide open" as it is called.

As we ascended the hurricane deck of Moana on the morning of January 12, just as the gun was streaking the eastern horizon, and looked for the first time on this lovely island, with its rainbow lure upon city, mountain, sky, and sea, we could but exclaim in wonder and admiration. Then as the finely equipped electric cars were taking us through the streets, past beautiful homes hidden away among the dense foliage of flower covered trees and hedges we said, yes it is, or would be, paradise if drink and sin were not here. But what havoc they work. Make this city a paradise for the gambler and faker? No, a thousand times no. From every loyal heart in America comes the answer "no."

God speed the day when our beautiful Island Territory assumes statehood as Oklahoma did—a "dry" state.

Yours faithfully,
C. L. MABEE

NUUANU DAM CONTRACT.

L. M. Whitehouse will receive notification from Marston Campbell, Superintendent of Public Works, that he has been awarded the contract for completing the Nuuanu dam on the basis of his bid of \$123,445, with the exception of certain reductions with regard to re-vestment work.

CHAMBERLAIN'S COUGH REMEDY ABSOLUTELY HARMLESS.

Every mother should know that Chamberlain's Cough Remedy is perfectly safe for children to take, as it contains nothing harmful. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

ROYAL CHILD BECOMES ITS MOTHER'S SISTER

Mrs. Abigail K. Campbell Parker has adopted her granddaughter, Abigail Helen Kapolani Kawananakoa, with the child's name changed to Kapolani Campbell. This makes the child lawful sister of its mother. The petition for legalization of adoption is signed by Prince David Kawananakoa and Princess Abbie W. Kawananakoa, parents of the child, and Mrs. Parker.

Judge Lindsay signed a decree of adoption in the matter yesterday, the petition for which bears the same date. Kapolani Campbell is in the fifth year of her age, having been born on March 14, 1903. According to the agreement and petition her parents surrender the custody and control of the child to Mrs. Parker, who agrees that, in consideration of the premises, she, the said Abigail K. Campbell Parker shall henceforth take the said Abigail Helen Kapolani Kawananakoa in adoption, adopt her as her daughter and nurture, care for, clothe, feed, house and educate and in all respects to provide for her as if she were her own daughter.

Holmes & Stanley and C. H. Olson were attorneys for petitioners.

FLEET IN STRAIT.

Editor Advertiser: Someone has evidently given you the very wrong impression, quoted in the Advertiser this morning, that "movements of steamers in the Strait of Magellan are confined to daylight, vessels anchoring at sundown." The truth is that it is very seldom a steamer anchors in the Strait, by day or night. In fact there are very few safe places to anchor, especially in the eastern portion, if a captain wanted to. The afternoon dispatches are probably correct and the American fleet will probably leave Punta Arenas for Sandy Point so-called by night and not anchor till it reaches Valparaiso. Moreover, it must be remembered how short their nights are.

SUBSCRIBER.

Hilo wants another Wild West Show on the Fourth of July.

Hair 55 Inches Long Grown by Cuticura.

MISS F. —, of L. —, sends us through our British Agents, Messrs. F. NEWBERRY & SONS, 37 and 38, Charterhouse Square, London, E. C., a strand of soft, glossy hair cut from her own head and measuring fifty-five inches in length, of which the annexed drawing is a photographic fac-simile. She attributes her magnificent head of hair to frequent shampooing with CUTICURA SOAP, followed by light dressings of CUTICURA ointment into the scalp. Previous to the use of CUTICURA, her hair was dry, thin, and lifeless, and came out in handfuls to such an extent that she feared she would lose it.

This is but one of many remarkable cases of the preservation and restoration of the hair in seemingly hopeless cases by warm shampooing with CUTICURA SOAP, followed by light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, cleans the scalp of crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow as a clean, sweet, wholesome, healthy scalp, when all else fails.

MILLIONS OF WOMEN use CUTICURA SOAP exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, and for all the purposes of the toilet, bath, and nursery.

Complete External and Internal Treatment for Erysipelas.

Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle; CUTICURA Ointment, to soothe the inflamed, itching, and irritated, and soothe and heal; and CUTICURA RESOLVENT, to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humors, when all else fails. Sold throughout the world. Sole Depot: R. TOWN & CO., Soleys, N. S. W. Sole African Depot: LONDON LTD., Cape Town. "All about the Skin, Scalp, and Hair," free. FOSTER DRUG AND CHEM. CO., Sole Props., CUTICURA.

Sole Manufacturers,
J. T. DAVENPORT, Ltd., London, S.E.

Dainty Dishes for Luncheon

CHIPPED BEEF STEWED IN CREAM: Mince the beef, place in a pan and cover the same with cream; add a pinch of salt and cayenne, and let the beef simmer for fifteen minutes. It will then be ready to serve.

OYSTERS A LA MAITRE D'HOTEL.

Wash and drain two dozen oysters. Put them in a stewpan or chafin dish with one tablespoonful of butter; stir carefully, and when the edges of the oysters begin to curl, add the juice of half a lemon, one tablespoonful of finely chopped parsley, and a little salt and pepper. Serve on slices of hot buttered toast.

An odd, but especially delicious omelet is made by mixing six eggs, beaten, two tablespoonfuls of melted butter, two of grated cheese, salt and pepper, with tarragon, chives and parsley chopped fine. Put butter size of a walnut in a pan and cook as an ordinary omelet, or finish in the oven as for a soufflé.

FLETCHERISM.

The most remarkable demonstration of the influence of diet seems to be afforded by the case of Mr. Fletcher, which has been described by himself and is stated even more forcibly in the Popular Science Monthly for December by Prof. Chittenden, who gave him a thorough test. Refused in middle age as an applicant for life insurance, and in wretched health, Mr. Fletcher experimented with a reduced diet and extra-mastication, with the result that, when approaching 60, he was able with no training to perform feats of endurance that the strongest athletes in the Yale gymnasium had never been able to approximate. Of medium size and no special athletic gift, this former invalid achieved records that stand in a class by themselves, and had not the least lameness or discomfort of any sort after performing feats far beyond the power of the most robust freshman. As to the practical result of his system there seems to be no room for question after Prof. Chittenden's complete endorsement of his claims. But as to the interpretation of his results there is still much difference among medical experts.—Springfield Republican.

SUGAR ON KAUALI.

The steamer W. G. Hall reported the following sugar ready for shipment on Kauai: P. L., 10,950 bags; H. M., 12,420; K. P., 600; M. S. Co., 800; K. S. Co., 1600; K. S. M., 750; Mak., 55,594; McB., 48,875.

Health and Beauty

Sometimes eyes get dull from overwork and strain. In which case rest and freedom from worry are the surest roads for the would-be bright eyes.

When the eyes refuse to sparkle there is usually a physical cause which needs attention. Often it is from indigestion or torpid liver, in which case careful diet and regular exercise in the open air should work a cure.

There is no greater mistake than to try to brighten dull eyes with drugs or drops. Eyesight is too important to be tampered with and even the common practice of putting a drop or two of cologne in the eyes to make them brilliant is injurious.

Few practices are more beneficial to the condition of the eyes than that of bathing them regularly every night before going to bed. Dust readily accumulates on the lids between the lashes and causes them to smart, an excellent method of cleaning them being the old-fashioned one of dabbling the lids with a piece of cotton wool dipped in cold weak tea.

For keeping the hands white and soft, the following lotion is recommended: Take one quart of water (boiled); alcohol, thirty drops; oxide of zinc, one ounce; bichloride of mercury, eight grains; glycerin, twenty drops. Take four ounces of the water and heat it to boiling, dissolve the bichloride of mercury in this hot water and add all the alcohol. Mix the zinc and glycerin together in a bowl; pour the larger portion of the quart of water in; stir, then add all the diluted bichloride of mercury and alcohol. Bottle and shake always before using. Apply the liquid with a small, soft velvet sponge.

DRINK LEMONADE.

The hygienic qualities of lemonade have long been popularly celebrated, and recent scientific research shows that this pleasing summer drink deserves its reputation. M. Riegel, writing in the Archives of Hygiene, says that in a lemonade containing six grains per liter of citric acid the bacillus of cholera is killed in half an hour, and that of typhoid in twenty-four hours. But when the same lemonade is permeated with sunshine the cholera bacillus perishes in five minutes and the typhoid bacillus in two hours.

INDIAN SPONGE BREAKFAST CAKES.

Stir into one cup sour milk a teaspoonful soda dissolved in a tablespoonful boiling water. When it stops "purring" add two cups Indian meal, two tablespoonfuls flour, two tablespoonfuls sugar and one well-beaten egg. Beat hard and bake.

Why rub the clothes away when Pau-ka-hana soap will take the dirt out without an effort. Ask your grocer for it.
